

***NATIONAL WEATHER SERVICE POLICY DIRECTIVE 60-7
JULY 9, 2002***

***Information Technology
Information Technology Security Policy***

NOTICE: This publication is available at: <http://www.nws.noaa.gov/directives/>.

OPR: CIO (C. Lovely)

Certified by: CIO (B. West)

Type of Issuance: Initial

SUMMARY OF REVISIONS:

1. This directive establishes the framework for the establishment, implementation, maintenance, and oversight of the National Weather Service (NWS) Information Technology (IT) Security Program for the protection and control of vital NWS IT resources.
2. The objective of the Information Technology Security Policy is to ensure NWS systems maintain a level of IT Security which reduces risk from threats while maintaining timely and accurate delivery of services.
3. This directive establishes the following authorities and responsibilities:
 - 3.1 The Assistant Administrator (AA) for Weather Services is responsible for adequate protection of the operating unit IT resources.
 - 3.2 The NWS Chief Information Officer (CIO) will monitor staff responsibility for IT security. The NWS CIO is the Designated Approval Authority (DAA) for all IT systems within NWS. The DAA may delegate approval authority to a senior management official who does not have direct control over the IT system being accredited.
 - 3.3 The NWS Information Technology Security Officer (ITSO) is responsible for the design, development, and compliance monitoring of the NWS IT Security Program in accordance with all Federal laws and higher level regulations and directives.
 - 3.4 System owners are responsible for providing adequate and appropriate levels of protection for the IT resources under their control. System level IT security will ensure the confidentiality, integrity, and availability are commensurate with NWS business needs for timely and accurate processing, continuity of operations, and accomplishment of the organization's mission.
 - 3.5 Each employee of the Department is responsible for the adequate protection of IT resources within their control or possession.

4. Monitoring compliance with this policy will be accomplished through formal certification, accreditation, and system reviews conducted in accordance with Federal laws and higher regulations and directives.
5. This policy directive is supported by the references and glossary of terms listed in Attachment 1.
